

**Is your child interested in
being on our...
AWARD-WINNING
VEX ROBOTICS TEAM?**

Come to a parent informational meeting...

**When: TUESDAY, APRIL 9, 2019
5:00 PM**

Where: Castlebay Lane Library

What is VEX Robotics?

With the mentoring and guidance of a coach, the teams will build robots from scratch and code the robot “brain” to accomplish a specific task. The teams will compete in tournaments throughout the season, playing a cooperative game with other teams from different schools. It’s an invaluable experience for our students!

We are looking for all kinds of students for our teams. Children must be:

- In 4th-5th grade during the 2019-20 school year OR previous Castlebay students who will then qualify for the middle school team
- Have a thirst to learn about new ideas and robotics concepts
- Able to work in a small group environment
- Able to work independently with little direction
- Have great communication skills

We will be discussing commitment expectations for our students and parents.

Please email Mr. Garringer at dag8819@lausd.net or call (818) 360-1908 for any questions.
